

## Germany joins the Over 80s

Over 80 international hockey continues to grow. For the past few years it has been just Netherlands against England but at Goslar, Germany in September 2024 Germany played their first international against Netherlands at Over 80. It is now hoped that three national sides - Netherlands, England and Germany - will compete in the first-ever Over 80 division of the European Cup at Mönchengladbach in August 2025.

For more details of the game at Goslar follow this link to local television coverage of the game - [click here](#)

For the record Netherlands won 2-1 in a closely contested game, so can claim to be European top dogs at Over 80 in 2024, having previously beaten England at Canterbury in April. In addition to the European Cup in 2025 there will also be an Over 80 division in the LX Club festival tournament at Nottingham in June/July 2025
