

WMH Indoor Hockey Tournament 2026

Following on from the successful WMH Indoor tournament of 2024, this year's WMH World Cup event ran from 26 to 31 March, again at David Ross Sports Village, Nottingham University, and was very successfully overseen by Indoor Hockey UK.

At least 16 countries, including Australia, Bangladesh, Ghana, Guyana and USA and many European countries, as well as Alliance IHC, participated in 14 different age groups (Men O35-O65 and Women O35-O65) with over 250 games being played. Well done to all the officials, umpires and volunteers, who gave of their time and expertise to make this possible!

The games took place on 4 indoor pitches from 09:00 to 21:00 and were all live-streamed. The most successful country was indisputably Germany (7 wins), followed by England (3) and Netherlands (3), and then Spain (1).
